## Meezan Bank Partners with Jaffer Business Systems for Digital Transformation with Oracle Cloud HCM

An agreement was signed between Meezan Bank Limited and Jaffer Business Systems Private Limited (JBS) for implementation of Oracle HCM Cloud at Meezan Bank.

This initiative is taken as part of the digital transformation at Meezan Bank.

A contract signing ceremony was held earlier, where Arif Ul Islam, Deputy Chief Executive, Meezan Bank, and Vegar ul Islam, Chief Executive JBS came together to mark the first step of this partnership.

Jbs Completed Ivanti Security Control Project at DP World

JBS has successfully implemented Ivanti Security Control solution at DP World. DP World is a progressive organization that is always looking to explore innovative solutions to bring advancement to its processes.

The solution enables the client to automatically scan and analyze system vulnerabilities and patch deployment, which when done manually used to take months. Now all this is done in just few days.
The solution has also minimized the risk of attacks to the systems since it provides continuous vulnerability detection and remediation.

The solution is implemented at several server farm and end point computing devices and the project was completed well before the deadline.
Rawalpindi Women University Selects JBS for IT Infrastructure and Cloud

The university has been at the forefront of offering online education with a student-centered approach. An indigenously developed Learning Management System (LMS) was deployed recently to augment the dissemination of knowledge. As part of achieving their digital transformation goals and objectives they collaborated with JBS to deliver state of the-art connectivity and cloud solutions to enhance the learning environment and improve on quality of education.

ENA Joins Hands With NAYATEL

ENA (a company of JBS) is proud to be associated with Nayatel, A Premium Triple Play (Internet, Cable TV, Phone) Service provider, to provide 500KW through installation of our impeccable Solar Solution. Nayatel Services are experienced by many in Islamabad, Rawalpindi, Faisalabad, Multan and other areas of Pakistan, it is therefore a privilege to be a part of the company. What makes us distinct is that our goals are not only directed towards supporting the company but our intentions are to promote green energy as well as national interest.

Upgradation of IT Infrastructure at Thal Engineering

Thal Engineering has selected JBS for upgradation to new IT infrastructure.

This includes migration to latest version of VMware, & deployment of HPE servers & storage.
JBS to Provide DNS Security Solutions in Collaboration With Infoblox

JBS enters a strategic partnership with Infoblox to provide DNS security solutions for businesses. With this partnership, we hope to provide our customers with an additional layer of security to keep their businesses safe from probable threats.

INFOBLOX delivers DNS security solutions for business-critical DNS, DHCP, IP Address Management (DDI) and Network Automation. It uses actionable network intelligence to deliver control and security from the core.
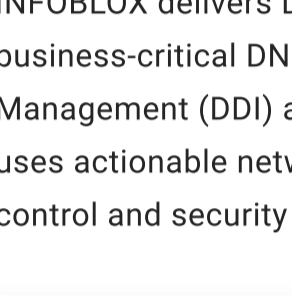

Partnering With Classera

JBS unveils its next step towards promoting literacy and education by partnering with a globally acclaimed e-learning solution provider - Classera. This partnership will help in providing one-stop solutions to educators and students alike. Classera provide a state-of-the-art, collaborative, and interactive learning environment capable of redefining education by bringing our unique expertise in the fields of technology and design.

Sap Business ByDesign-New Addition to Our Portfolio

JBS has added new solution named SAP Business ByDesign to its portfolio to better cater to the needs of its customers.

SAP Business ByDesign is a business management tool in the cloud, designed to boost the efficiency and productivity of businesses, solve business problems, offering ease of use, secure data processing, and the reassurance of having SAP support.

Ivanti Patch Management Solution Goes Live in Banking Sector Client

In an IT environment there is always a risk of security and cyberattacks. Patching is the first step to reducing the risk of ransomware and other malware. A bank in Pakistan has procured Central Patch Management Solution named as Ivanti Security Controls which automates, prevent, detect, and develop response strategies to simplify security and streamline productivity.

JBS has successfully implemented this project well before timelines and with this solution the Bank is now able to save on cost, reduce bandwidth consumption, minimize threats, and can do scheduled patching.

JBS Enabled Petroleum Company to Improve Storage & Speed Up LAN Performance With IT Infrastructure Transformation

A client organization from Oil and Gas industry has selected JBS for HPE Primera Storage and SAN Switches that enables them to run their SAP applications.

HPE Primera, has eliminated disruptions and manages itself for mission critical apps.

The organization gets instant access to data with enterprise storage that sets up in minutes and upgrades transparently.

With having SAN, it improves bandwidth because it moves the storage traffic and devices into a dedicated network from LAN hence speeding up the LAN performance. Besides it also provides improved data security and scalability.

Thanking NCCPL for Continued Trust in JBS Since 15 Plus Years

An event was organized at our head office to mark and celebrate 15+ years of business relationship with our prestigious client National Clearing Company of Pakistan Ltd. (NCCPL).
